ACT IT OUT

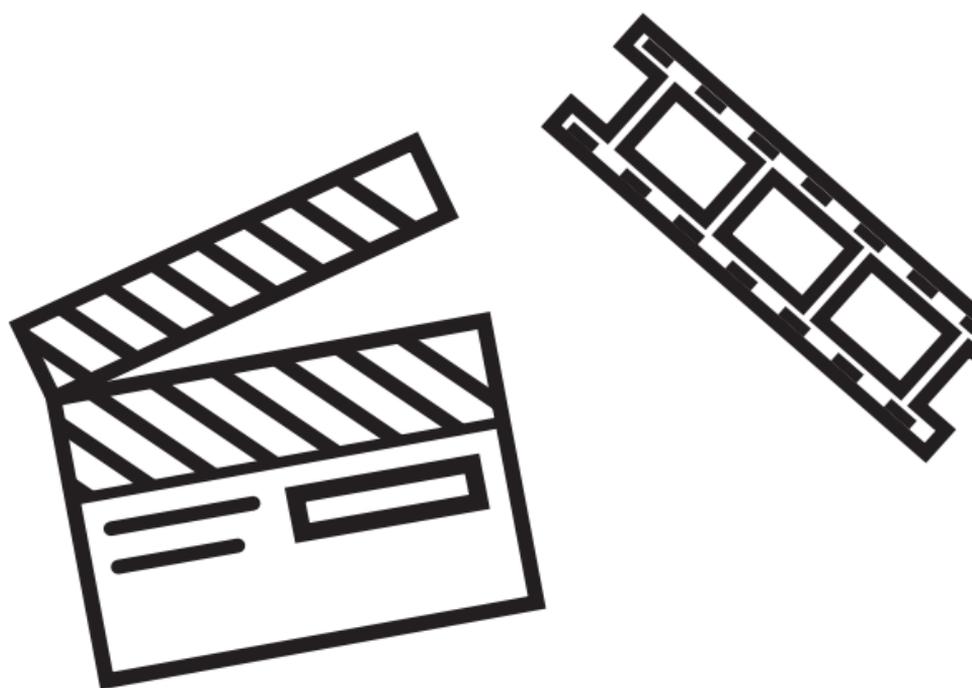

Designed by
Grand Rapids Art Museum,
Learning and Creativity Department

LOOK for a work of art that uses movement. (Make sure that you have plenty of room to move around!)

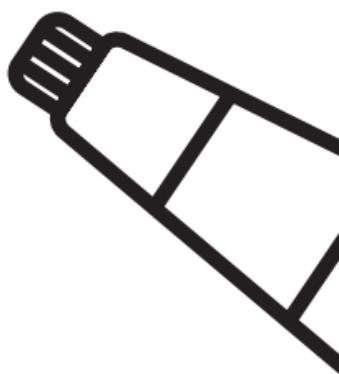

Find a person or animal in a work of art and try to copy its pose with your body.

Choose a painting in the gallery and pretend you are the artist. How would you move your brush to create big or small strokes?

Artists create **MOVEMENT** in their work by using actions, lines and brush strokes to suggest motion.

Designed by Air Zoo

EXPLORE ArtPrize® Nine to discover splatters all over the city!

- If there are layers, can you tell which one came first? How can you tell?
- Do you think the mark was intentional or unintentional? Why?
- Why do you think the artist dripped, globbed and splattered onto their work of art?
- What other types of splatters can you discover along the way? Draw a picture of it and report to the Air Zoo table for inspection during events below.

FINDING INSPIRATION

Designed by
Grand Rapids Children's Museum

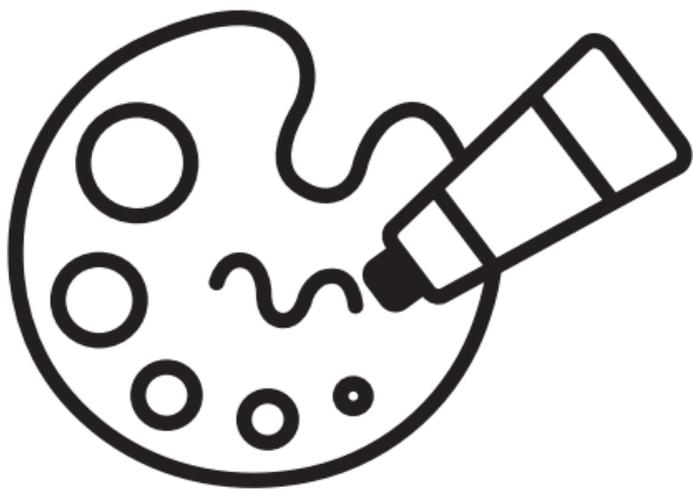

Art begins with inspiration. This means artists see, feel, hear or touch something that becomes an idea and eventually a work of art.

THINK OF AN IDEA THAT YOU HAVE HAD...

What inspired that idea? Look around you now, look very closely. Do you see anything that inspires you?

WHEN YOU'RE AT ARTPRIZE...

What do you think may have inspired the artist to create this work of art? Does the work inspire you? Why?
